L-SERIES **BACKHOES**

TO BUILD A BETTER BACKHOE,

WE WENT TO YOU, OUR CUSTOMER.

Through our Customer Advocate Group (CAG), we collected invaluable input from owners and operators — the ones who know best what customers really need.

You spoke. And we listened and responded by improving our product line with updates like pressure-compensated load-sensing (PCLS) hydraulics on the 410L, low-effort pilot controls, and a John Deere PowerShift™ transmission — and that's just the start. As always, we're boosting your productivity and maximizing uptime, while lowering daily operating costs. When it comes to delivering what you want, nobody responds like John Deere.

Standard-equipped side-shift backhoes can be offset up to 542 mm right or left of center, making them ideal for work in crowded urban areas and around obstacles.

Not all features described are available for all models or configurations. Please review the Additional Equipment section and consult with your local dealer for the latest standard and optional offerings.

GET MORE DONE WITH ONE

MULTIFUNCTION VERSATILITY, CONFIDENT CAPABILITY.

Why run two machines when one will do? Whether you're loading trucks, busting up blacktop, placing pipe, digging trenches, or moving materials, an L-Series Backhoe is more than up to the task. Building upon our highly productive K-Series Backhoes, the L-Series features pressure-compensated load-sensing (PCLS) hydraulics (on the 410L), for superb multifunction performance. The result: our most versatile backhoes ever.

True four-wheel drive on command

Standard limited-slip mechanical-frontwheel drive (MFWD) (optional on the 310L*) delivers reliable traction in any ground condition. Engage momentary MFWD "on the fly" with the touch of a button on the loader control.

Powertrain performance

Responsive and productive standard five-speed transmission on the 310SL. 315SL, and 410L provides transport speeds up to 40 km/h. Add optional AutoShift and increase versatility in any application.

Control the ride and the load

With ride control activated, front loader hydraulic cylinders act as a shock absorber, smoothing travel over rough terrain, helping full loads reach their destination, and reducing operator fatigue. Optional Auto Ride Control kit eliminates the need to engage/disengage ride control every time the front bucket is loaded and can be adjusted to be enabled between 1.6-24.1 km/h.

Smooth gear changes

PowerShift transmission provides on-the-go clutchless gear changes for the operator.

Powerful engines

Trust John Deere PowerTech 4.5L engines to provide emissions solutions that are proven, integrated, simple, and supported, for the muscle needed to power through any workday.

Improved multipurpose bucket

Be more productive in more applications with our standard

SAY GOODBYE

TO BUMPS IN THE ROAD.

Beat operator fatigue and work faster across large jobsites with the L-Series Backhoe's standard PowerShift transmission and optional ride control. These trusted features enable you to effortlessly traverse any terrain and reduce spillage from loaded buckets in the roughest of conditions.

PowerShift transmission

Take advantage of smooth shifting and reliable performance under a variety of load sizes and operating conditions with PowerShift's hydraulically actuated clutch packs.

In-the-field update

Even if you order your machine without ride control, you can easily update it with the field kit. Simply call your dealer to order the kit and have it installed.

Limited-slip differential

Limited-slip differential in the front axle provides excellent tractive effort and 4x4 performance. Comes standard on all models.

Five-speed transmission (standard on 310SL, 315SL, and 410L)

Additional forward gearing enables top speeds of up to 40 km/h.

Optional AutoShift transmission*

The smoothest-shifting automatic transmission in the industry improves operator comfort by reducing the number of times the transmission-control lever needs to be actuated during operation.

*Not available on the 310L.

Thanks to Deere asking for my input, I get a better machine, and these improvements make all the difference in my day's productivity.

- Todd Heiderscheidt, Backhoe CAG Member

Easy-to-use loader-control grip

"Palm-on-top" loader-control grip is even more comfortable and easy to use. Control of clutch disconnect, transmission quick-shift, auxiliary proportional roller, and momentary mechanical-front-wheel drive is at your fingertips.

Easy, fingertip control of backhoe functions

Fingertip electrohydraulic (EH) control of redesigned pilot levers provides even easier operation of backhoe functions, including selective flow and the horn.

Extend your workday

LED lighting kit includes choice of LED spot- or floodlights. For enhanced visibility when your workday goes long.

More legroom and space to rotate

Redesigned pilot towers provide more legroom and additional space for transitioning between loader and backhoe operation.

Fatigue-beating comfort

L-Series Backhoes are loaded with creature comforts, including an efficient HVAC system and an adjustable mechanical or air-suspension seat.

Steering column controls

Exterior lights, wipers, and turn signals are now more conveniently located on the multifunction lever on the steering column — just like a regular vehicle — helping operators keep their eyes on the job at hand.

PROVEN RELIABILITY

WON'T BACK DOWN. OR LET YOU DOWN.

Built with state-of-the-art tools and technology by a quality-conscious workforce at our facility in Dubuque, Iowa, U.S.A., L-Series Backhoes deliver the reliability and uptime you've come to expect from our equipment. When you know how they're built, you'll run a Deere.

Onboard diagnostics center

Advanced onboard-diagnostics technology is standard on all L-Series Backhoes. The exclusive John Deere WorkSight™ suite of telematic solutions includes JDLink™ with real-time machine monitoring and remote diagnostics to help increase uptime while lowering operating costs.

Quick, clean filter changes

Vertical spin-on engine, transmission, and hydraulic filters and quick-release fuel filters allow fast, clean changes. Standard heavy-duty transmission oil filter increases reliability.

More durable multipurpose bucket

Our rugged multipurpose bucket has been reinforced with thicker plates and stronger cylinder mountings for longer wear life.

Bias and radial tire options

Choose from a variety of factoryinstalled tire options, for the traction, exceptional performance, and long service life your specific application requires.

Diff-lock protection

Enabled through the monitor, differential-lock protection prevents engagement at high travel speeds and the resulting wear and tear on axle components.

Maintenance-free batteries

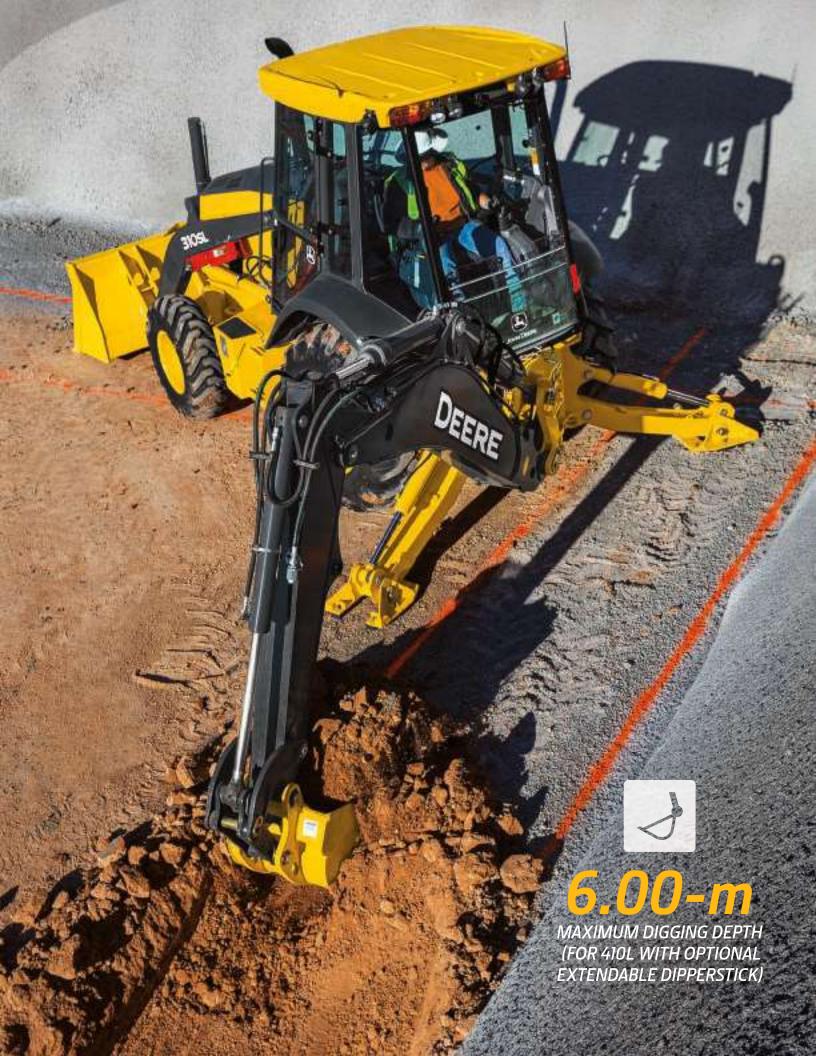

Standard maintenance-free batteries reduce periodic servicing, improve cold-starting reliability, and lengthen battery life.

Superior hydraulic oil

L-Series Backhoes come factory-filled with Hydrau[™] premium all-season, anti-wear hydraulic oil specifically designed for construction equipment. Or for cold weather, opt for Hydrau[™] XR, which offers all-season protection from from -40 to 40 deg. C.

Protect your investment

Machine-security system with touchpad passcode helps prevent unauthorized operation.

EASY MAINTENANCE

KEEP THE PEACE. AND YOUR PEACE OF MIND.

Save fuel with economy mode

Standard economy mode can be configured separately between loader and backhoe functions. For example, activate economy mode for backhoe functions while retaining full power for loader functions. This helps maximize fuel usage in lighter-work applications with minimal effect on machine performance.

Improved diagnostics

State-of-the-art multi-language monitor clearly displays machine diagnostics. Operators can quickly and easily program a multitude of time-specific functions such as auto shutdown and auto-idle.

Minimize downtime and expense

Same-side ground-level service points help speed daily checks and fills. Other commonsense features such as quick-change filters, extended service intervals, simple-to-read sight gauges, and easy-access grease zerks help increase uptime and lower daily operating costs.

Quick and easy A/C cleanout

Hinged air-conditioner condenser enables convenient cleaning of the unit, for maximum efficiency.

Quiet, fuel-efficient fan

Standard suction-type direct-drive fan helps conserve power and fuel, while reducing noise. A temperature-controlled (viscous) variable-speed fan option is available for all models.

Durable engine technology

All L-Series models feature John Deere PowerTech 4.5L EPA Tier 3/EU Stage IIIA or Tier 2/Stage II diesel engines, providing emission solutions that are proven, integrated, simple, and supported.

Save fuel and reduce noise

Auto-idle decreases engine speed when hydraulics aren't in use, to help maintain quiet working conditions and conserve precious fuel. Auto shutdown turns off the engine after an operator-selected period of inactivity, further keeping noise and fuel consumption down.

Get valuable insight with

JOHN DEERE WORKSIGHT

John Deere WorkSight is an exclusive suite of telematics solutions that increases uptime while lowering operating costs. At its heart, JDLink machine monitoring provides real-time utilization data and alerts to help you maximize productivity and efficiency while minimizing downtime. Remote diagnostics enable your dealer to read codes and record performance data without a trip to the jobsite.

Keep downtime down with

JOHN DEERE ULTIMATE UPTIME

John Deere Ultimate Uptime, featuring John Deere WorkSight, is a customizable support solution available exclusively from your Deere dealer. This flexible offering maximizes equipment availability with standard John Deere WorkSight capabilities that can help prevent future downtime and speed repairs when needed. In addition to the base John Deere WorkSight features, our dealers work with you to build an uptime package that meets the specific needs of your machine, fleet, project, and business, including customized maintenance and repair agreements, onsite parts availability, extended warranties, fluid sampling, response-time quarantees, and more.

Mechanical-Front-Wheel-Drive (MFWD) Axle	Automatic, limited-slip tra			
Rear Axle		lly engaged 100% mechanical loc	K	
Steering (ISO 5010)		ig and emergency steering		
Axle	MFWD	Non-Powered Fro	ont	
Curb-Turning Radius				
With Brakes	3.58 m (11 ft. 9 in.)	3.56 m (11 ft. 8 in		
Without Brakes	4.20 m (13 ft. 9 in.)	4.17 m (13 ft. 8 in	.)	
Bucket-Clearance Circle				
With Brakes	10.23 m (33 ft. 7 in.)	10.22 m (33 ft. 6		
Without Brakes	11.15 m (36 ft. 7 in.)	11.13 m (36 ft. 6 ir	n.)	
Steering Wheel Turns (lock to lock)	2.7	3.2		
MFWD and Rear Axle	Heavy duty, outboard plan	netary final drives distribute sho	ck loads over 3 gears	
Brakes (ISO 3450)			-	
Service	Power assisted, hydraulic	wet disc, mounted inboard, self-	adjusting and self-equalizing	
Parking	,		pendent of service brakes with e	lectric switch control
Hydraulics				
Main Pump	Open-center system; tand	lem gear pump with unloader		
	, .,	3 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1		
Pump Flow at 2.200 rpm				
Pump Flow at 2,200 rpm Backhoe	136 L/m (36 apm)			
Pump Flow at 2,200 rpm Backhoe Loader	136 L/m (36 gpm) 106 L/m (28 gpm)			

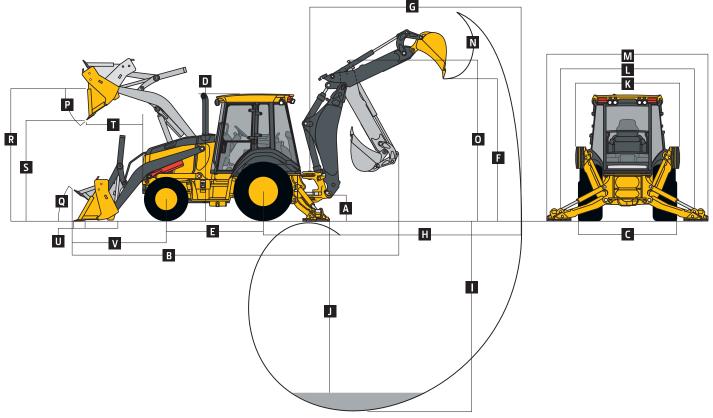

SPECIFICATIONS While general information, pictures, and descriptions are provided, some illustrations and text may include product options and accessories NOT AVAILABLE in all regions, and in some countries products

Hydraulics (continued)	310SL			
Controls				
Backhoe	2-lever mechanical standard; pilot control with pattern select and auxiliary functions optional; field kits available for additional mechanical-control options			
Loader	Single-lever control with electric clutch cutoff switch and MFWD (momentary) standard; single-lever control with electric clutch cutoff switch, electrohydraulic (EH) proportional auxiliary roller, MFWD (momentary), and transmission quick-shift optional			
Cylinders	quien simile operation			
Heat-treated, chrome-plated, polished rods; hardene	ed steel (replaceable bushings) pivot	pins		
	Bore	Rod Diameter	Stroke	
Loader Boom (2)	80 mm (3.15 in.)	50 mm (1.97 in.)	789 mm (31.08 in.)	
Loader Bucket (1)	90 mm (3.54 in.)	50 mm (1.97 in.)	744 mm (29.29 in.)	
Backhoe Boom (1)	120 mm (4,72 in.)	56 mm (2,20 in.)	794 mm (31,26 in.)	
Backhoe Crowd (1)	115 mm (4.53 in.)	63 mm (2.48 in.)	602,5 mm (23,72 in.)	
Backhoe Bucket (1)	90 mm (3,54 in.)	56 mm (2,20 in.)	810 mm (31,89 in.)	
Heavy-Duty Option	100 mm (3.94 in.)	63 mm (2.48 in.)	810 mm (31.89 in.)	
Backhoe Swing (2)	90 mm (3.54 in.)	50 mm (1.97 in.)	278 mm (10.94 in.)	
Backhoe Extendable Dipperstick (1)	70 mm (2.76 in.)	40 mm (1,57 in.)	1062 mm (41,81 in.)	
Backhoe Stabilizer (2)				
Standard	90 mm (3.54 in.)	50 mm (1.97 in.)	500 mm (19.69 in.)	
Optional Extended Leg	100 mm (3.94 in.)	50 mm (1.97 in.)	500 mm (19.69 in.)	
Non-Powered Axle (1)	70 mm (2.76 in.)	42 mm (1.65 in.)	210 mm (8.27 in.)	
MFWD (1)	65 mm (2.56 in.)	40 mm (1.57 in.)	210 mm (8.27 in.)	
Electrical				
Voltage	12 volt			
Alternator Rating	130 amp			
Lights	10 halogen: 4 front, 4 rear, and 2 side docking (32,500 candlepower each); turn signals and flashers: 2 front and 2 restop and taillights; and 2 rear reflectors; factory-installed option for 2 LED spotlights and 8 LED front floodlights in of standard halogen light package			
Operator Station				
Type (SAE J1040)	Canopy, isolation mounted, ROPS/ fully enclosed cab	FOPS, left/right access, with molded ro	oof; optional quarter cab (front glass only) a

Overall Dimensions	410L
A Ground Clearance, Minimum	334 mm (13 in.)
B Overall Length, Transport	7.43 m (24 ft. 5 in.)
C Width Over Tires	2.34 m (7 ft. 8 in.)
D Height to Top of ROPS/Cab	2.87 m (9 ft. 5 in.)
E Length from Axle to Axle	
Non-Powered Front Axle	2.16 m (7 ft. 1 in.)
MFWD Axle	2.19 m (7 ft. 2 in.)

Backhoe Dimensions and Performance									
Backhoe specifications are with 610-mm x 0.21-m³ (24 in. x 7.5 cu- ft.) bucket; dipper lift specs are with a boom angle of 60 deg.									
Bucket Range	305–762 mm (12–30 in.)								
Digging Force									
Bucket Cylinder	69.9 kN (15,723 lb.)								
Crowd Cylinder	44.1 kN (9,907 lb.)								
Swing Arc	180 deg .								
Operator Control	2 levers								
		With Optional Extendable Dipperstick							
	With Standard Backhoe	Retracted	Extended						
F Loading Height, Truck Loading Position	3.97 m (13 ft. 0 in.)	4.01 m (13 ft. 2 in.)	4.72 m (15 ft. 6 in.)						
G Reach from Center of Swing Pivot	6.02 m (19 ft. 9 in.)	6.02 m (19 ft. 9 in.)	7.14 m (23 ft. 5 in.)						
H Reach from Center of Rear Axle	7.14 m (23 ft. 5 in.)	7.14 m (23 ft. 5 in.)	8.26 m (27 ft. 1 in.)						
 Digging Depth (SAE maximum) 	4.85 m (15 ft. 11 in.)	4.85 m (15 ft. 11 in.)	6.00 m (19 ft. 8 in.)						
J Digging Depth (SAE)									
610-mm (2 ft.) Flat Bottom	4.80 m (15 ft. 9 in.)	4.80 m (15 ft. 9 in.)	5.97 m (19 ft. 7 in.)						
2440-mm (8 ft.) Flat Bottom	4.49 m (14 ft. 9 in.)	4.49 m (14 ft. 9 in.)	5.75 m (18 ft. 10 in.)						
K Stabilizer Width, Transport	2.35 m (7 ft. 9 in.)	2.35 m (7 ft. 9 in.)	2.35 m (7 ft. 9 in.)						
L Stabilizer Spread, Operating	3.45 m (11 ft. 4 in.)	3.45 m (11 ft. 4 in.)	3.45 m (11 ft. 4 in.)						
M Stabilizer Overall Width, Operating	4.03 m (13 ft. 3 in.)	4.03 m (13 ft. 3 in.)	4.03 m (13 ft. 3 in.)						
N Bucket Rotation	190 deg.	190 deg .	190 deg.						
O Transport Height	3.91 m (12 ft. 10 in.)	3.91 m (12 ft. 10 in.)	3.91 m (12 ft. 10 in.)						

Loader Dimensions and Performance	410L		
P Bucket Dump Angle, Maximum	45 deg.		
Q Rollback Angle at Ground Level	40 deg.		
	Heavy-duty	Heavy-duty	Multipurpose
Bucket Capacity	1.00 m³ (1.31 cu. yd.)	1.15 m³ (1.50 cu. yd.)	1.00 m³ (1.31 cu. yd.)
Width	2346 mm (92 in.)	2394 mm (94 in.)	2346 mm (92 in.)
Weight	521 kg (1,148 lb.)	548 kg (1,208 lb.)	863 kg (1,902 lb.)
Breakout Force	47.3 kN (10,645 lb.)	46.1 kN (10,361 lb.)	43.7 kN (9,824 lb.)
Lift Capacity, Full Height	3271 kg (7,211 lb.)	3160 kg (6,967 lb.)	2787 kg (6,144 lb.)
R Height to Bucket Hinge Pin, Maximum	3.47 m (11 ft. 4 in.)	3.47 m (11 ft. 4 in.)	3.47 m (11 ft. 4 in.)
S Dump Clearance, Bucket at 45 deg.	2.70 m (8 ft. 10 in.)	2.66 m (8 ft. 9 in.)	2.67 m (8 ft. 9 in.)
T Reach at Full Height, Bucket at 45 deg.	730 mm (28.7 in.)	772 mm (30.4 in.)	772 mm (30.4 in.)
U Digging Depth Below Ground, Bucket Level	135 mm (5 . 3 in .)	135 mm (5.3 in.)	131 mm (5.1 in.)
V Length from Front Axle Centerline to Bucket	2.03 m (6 ft. 8 in.)	2.09 m (6 ft. 10 in.)	2.08 m (6 ft. 10 in.)
Cutting Edge			
Lift Capacity with Quick-Coupler Forks			
Hydraulic Capacity	1219-mm (48 in.) Tines	1524-mm (60 in.) Tines	
A ^I Maximum Height	2019 kg (4,452 lb.)	1887 kg (4,161 lb .)	
BI Maximum Reach	3158 kg (6,963 lb.)	2978 kg (6,565 lb.)	
CI At Ground Line	4009 kg (8,839 lb.)	3792 kg (8,360 lb.)	
DI Below Ground Line	206 mm (8.1 in.)	206 mm (8.1 in.)	

Lift Capacities

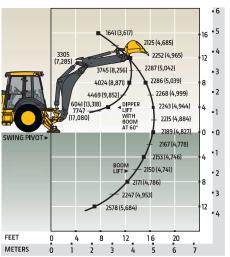

Lift capacities are over-end values in kg (lb.). Figures listed are 100% of the maximum lift force available.

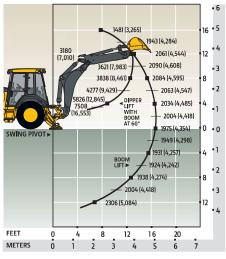

STANDARD LIFT
STANDARD LIFT

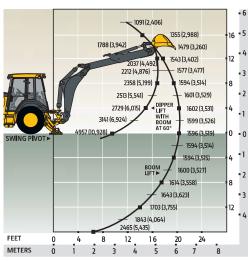

With Standard Dipperstick

% of the maximum lift force available STANDARD LIFT With 1.21-m (4 ft. 0 in.) Extendable Dipperstick, Retracted

STANDARD LIFT With 1.21-m (4 ft. 0 in.) Extendable Dipperstick, Extended

^{*}Indicates capacity is stability limited. Lift capacities are over end with stabilizers down and tires tangent to ground.

 $While \ general \ information, \ pictures, \ and \ descriptions \ are \ provided, \ some \ illustrations \ and \ text \ may \ include \ product \ options$ and accessories NOT AVAILABLE in all regions, and in some countries products and accessories may require modifications or additions to ensure compliance with the local regulations of those countries.

Actual machine configuration may differ from image. Not all models available in all countries.

Net engine power is with standard equipment including air cleaner, exhaust system, alternator, and cooling fan at test conditions specified per ISO 9249. No derating is required up to 1500-m [5,000 ft.] altitude and up to 3050-m [10,000 ft.] with optional altitude-compensating turbocharger. Specifications and design are subject to change without notice. Wherever applicable, specifications are in accordance with ISO standards. Except where otherwise noted, these specifications are based on a 310L unit with 19.5L-24-in. 12PR (R4) tubeless rear and 12.5/80-18 12PR (F3) front tires, and 0.86-m³ (1.12 cu. yd.) loader bucket; a 310SL unit with 19.5L-24-in. 12PR (R4) tubeless rear and 12.5/80-18 10PR (R4) front tires, and 10.00-m³ (1.31 cu. yd.) loader bucket; a 315SL unit with 16.9L-28 R4 (12) tubeless rear and 12.5-80/18 10PR (R4) front tires, and 12.5 1.00-m³ (1.31 cu. yd.) loader bucket; and a 410L unit with 21L-24-in. 12PR (R4) tubeless rear and 12.5/80-18 10PR (R4) front tires, and 1.15-m³ (1.5 cu. yd.) loader bucket.
