

ES250 & ES450

**Battery Energy Storage System (BESS)
for clean and sustainable energy**

TECHNICAL SPECIFICATIONS

Infinity Cube ES250 & ES450 Battery Energy Storage System (BESS)

What is the Infinity Cube?

The Infinity Cube is a rechargeable Battery Energy Storage System (BESS), designed to store and seamlessly distribute instant power to multiple commercial and industrial electrical loads. The Infinity BESS delivers the power to work anywhere, providing access to environments where there are challenges with grid availability and stability.

Maximise your renewable potential and experience the value of uninterrupted power!

What can it power?

The Infinity Cube is best suited to equipment with intermittent or high current load characteristics such as tower cranes, passenger hoists, batching machines, and welders. Other common applications include remote area communities, construction site base loads, electrified plant such as cranes and earthmoving equipment plus grid stabilisation applications.

How does it work?

There are 2 main ways of using the Infinity Cube in different applications.

1. Hybrid System

In a hybrid power system, the Infinity Cube will perform load sharing with the synchronised connection of a diesel generator, supplying extra power in critical moments. On low load, the diesel generator will automatically divert additional power to recharge the BESS.

2. Island System

When connected to a power grid or renewables with small charging current, the Infinity Cube can achieve zero emission.

Why choose the Infinity Cube?

Cost Saving

Reduces 80% of fuel costs

Eco-friendly

100% electricity, no diesel needed

Quiet

Suitable for residential and noise sensitive areas

Fast Charging

High power input of up to 250 kW

Zero Downtime

Constant uptime via ready to deliver stored energy

Plug-and-play system

Industry standard connection points

Hybrid Mode

Synchronisable with other Infinity Cubes, the Grid, and Diesel Generators for higher output

Built-in fire-safety system

Aerosol fire suppression system with heat, smoke, and gas detection

Diverse Applications

Passenger hoist

Tower cranes

Batching plants

Welding

Specifications

Model	ES250 (Infinity Cube M)	ES450 (Infinity Cube L)
Nominal Rated Power	225 kW	450 kW
Nominal Energy Storage Capacity	150 kWh	300 kWh
Max. Current (A)	300 A	650 A
Ingress Protection	IP54	
Operating temperature	-20 °C ~ 50 °C	
Frequency	50 Hz	
Rated Voltage (AC)	380 V ~ 440 V	
Battery System Voltage (DC)	600 V ~ 876 V	
Battery Chemistry	Lithium Iron Phosphate (LFP) LiFePO ₄	
Fire Extinguisher System	Aerosol	
Communication mode	Ethernet, 5G wireless, RS485	
Input modes	Power Grid, Solar Energy, Generators	
Weight	5100 kg	7500 kg
Dimensions (L x W x H)	1.75 x 2.3 x 2.4m (6 ft container)	2.5 x 2.3 x 2.4m (8 ft container)
	Low Maintenance	
	Compliant to Australian Standards	
	Overvoltage & Undervoltage Protection	
Expected Lifetime	> 10 years	
Certifications	UN, UL, IEC, IEE, CE	
	Charging at off-peak reduces charging cost	
	Instant full capacity power	
	Wired into distribution board onsite	
	Easily transportable
